All WOCN's Aboard

Stoney Creek Inn
5291 Stoney Creek Court
Johnston, Iowa 50131
515-334-9000

Registration available online at **www.iowawocn.org**

Purpose: This conference is designed to provide the most current information on a variety of subjects applicable to nurses who specialize in wound, ostomy, continence and foot care.

1. Understand the pathways to amputation.
2. Apply vascular, infection, and pressure principles to treat limbs at risk.
3. Know the benefits of a team model for prevention of amputations.
4. Understand options of care to treat urinary and fecal incontinence.
5. Understand types of urinary and fecal incontinence.
6. Physical therapy strategies to treat urinary and fecal incontinence.
7. Understand behavioral factors affecting urinary and fecal incontinence.
8. Assimilate the chemical process of steam production with personal energy.
9. Articulate multiple ways to protect and preserve personal energy to harness it for use.
10. Describe the allegory of steam as it applies to self-care and professional practice.
11. To Develop an understanding of intestinal failure and the current strategies for medical and surgical management
12. To gain exposure to the abdominal wall wound and ostomy challenges posed by patients with severe enterocutaneous fistulas both before and after surgical intervention.
13. Become familiar with wound infection management.
14. Become familiar with osteomyelitis management.

Intended Audience: Nurses and other Healthcare Professionals who specialize in wound, ostomy, continence and foot care.
